Dear Registrar:

Re: FortisBC Inc. (FBC)

Annual Review for 2027 Rates (Application)

British Columbia Utilities Commission (BCUC) Order G-219-26 - FBC Response to Industrial Customers Group (ICG) Information Request (IR) No. 1, Question 2.2

FBC writes in response to BCUC Order G-219-26 dated October 5, 2026, directing FBC to publicly provide the information requested by ICG in its IR1 2.2 in the above noted proceeding, specifically:¹

- Number of data center loads greater than 10MW (megawatts) or 50GWh (gigawatt hours) annually in FBC's service territory;
- Rate schedules that the above-noted data center loads take service under; and
- Total actual load in 2024, 2025 and year-to-date 2026 for the above-noted data center loads.

FBC respectfully provides the following response.

1. Number of data center loads greater than 10 MW (megawatts) or 50 GWh (gigawatt hours) annually in FBC's service territory.

FBC currently has 1 data center customer with loads greater than 10 MW or 50 GWh annually.

2. Rate schedules that the above-noted data center loads take service under.

The above noted data center takes firm service under Rate Schedule (RS) 31 Large Commercial Service (Transmission) and non-firm service under RS 38 Interruptible Service.

¹ Decision, p. 2.

3. Total actual load in 2024, 2025 and year-to-date 2026 for the above-noted data center loads.

As there is only a single data centre customer in this category (i.e., greater than 10 MW or 50 GWh annually), public disclosure of the actual load information would reveal the customer's private consumption information. Consequently, FBC is redacting the load information for the public filing because it is confidential and private customer information for which FBC does not have the authority or permission to disclose publicly or to any other party, irrespective of whether they have filed a Confidentiality Declaration and Undertaking form in this proceeding. FBC is filing the actual load information with the BCUC only on a confidential basis and requests it be held confidential by the BCUC in perpetuity, pursuant to Section 23 of the BCUC's Rules of Practice and Procedure regarding confidential documents as set out in Order G-192-25.²

Please refer to Table 1 below for the actual load of the data center customer in 2024, 2025, and 2026 up to August 31.

Table 1: Actual load in 2024, 2025, and up to August 31, 2026 from the Single Data Center Customer (GWh)

	2024 Actual	2025 Actual	2026 Actual (Up to August)
Total Load (GWh)	■	■	■

If further information is required, please contact the undersigned.

Sincerely,

FORTISBC INC.
