Attention: Mr. Christopher P. Weafer

Dear Mr. Weafer:

Re: FortisBC Energy Inc. (FEI)

Application for a Certificate of Public Convenience and Necessity (CPCN) for the Tilbury Liquefied Natural Gas (LNG) Storage expansion (TLSE) Project (Application)

Response to the Commercial Energy Consumers Association of British Columbia (CEC) Information Request (IR) No. 3 on Rebuttal Evidence, Question 119.1 Unredacted

On July 14, 2022, FEI filed its responses to CEC IR3 on Rebuttal Evidence in the above noted Application. At the time, FEI filed a portion of the response to CEC IR3 119.1 on a confidential basis (page 8) as it contained commercially sensitive information regarding the existence of an agreement between the Musqueam Indian Band and FortisBC Holdings Inc., which is now public.

FEI hereby attaches the unredacted version of page 8 of the response to CEC IR3 119.1 for the public record of this proceeding.

If further information is required, please contact the undersigned.

Sincerely,

FORTISBC ENERGY INC.

FortisBC Energy Inc. (FEI or the Company) Application for a Certificate of Public Convenience and Necessity (CPCN) for the Tilbury Liquefied Natural Gas (LNG) Storage Expansion (TLSE) Project (Application)	Submission Date: July 14, 2022
Response to Commercial Energy Consumers Association of British Columbia (CEC) Information Request (IR) No. 3 on Rebuttal Evidence	Page 8

1 Indigenous-led Assessment that TWN will undertake and a process to seek consensus with TWN,
2 which are described in the Assessment Plan.

3 The remainder of this response is redacted and is being filed on a confidential basis, pursuant to
4 Section 19 of the BCUC's Rules of Practice and Procedure regarding confidential documents as
5 set out in Order G-178-22, as it contains commercially sensitive information. The information is
6 of a commercially sensitive nature and significant harm or prejudice to FEI's competitive or
7 negotiating position is reasonably expected to result if the confidential information was made
8 public.

9 Musqueam Indian Band (Musqueam) is also undertaking an Indigenous-led Assessment for the
10 Phase 2 LNG Expansion Project. Moreover, in June 2022, FortisBC Holdings Inc. and Musqueam
11 reached an agreement that will allow for collaboration and partnership between Musqueam and
12 FortisBC related to the BCUC-regulated and non-BCUC regulated projects at Tilbury
13 Island. While the specific details of the agreement are confidential, the agreement includes,
14 among other things, options for Musqueam to acquire equity ownership in the forward regulated
15 projects including the TLSE Project, subject to applicable regulatory approvals (which would
16 include BCUC approval) and other conditions. This agreement is in addition to the project
17 mitigations that have been or will be implemented as part of regulatory processes.
