Dear Patrick Wruck:

Re: FortisBC Energy Inc. (FEI)

Application for Approval of an Operating Agreement between the Corporation of the City of Penticton (City of Penticton) and FEI

FEI has entered into a new Operating Agreement dated October 17, 2023 with the City of Penticton (FEI-Penticton Operating Agreement), for which FEI is requesting approval from the British Columbia Utilities Commission (BCUC), pursuant to section 23(1)(g) of the *Utilities Commission Act* (UCA), effective January 1, 2024. A copy of the executed FEI-Penticton Operating Agreement is provided in Appendix A.

City of Penticton is an Interior Municipality with an Expiring Operating Agreement

By Order C-8-03, dated September 2, 2003, the BCUC approved the current Operating Agreement between FEI (through its predecessor company BC Gas Utility Ltd.) and the City of Penticton. The term of the existing Operating Agreement is set to expire on December 31, 2023. A copy of the expiring Operating Agreement is provided in Appendix B.

The FEI-Penticton Operating Agreement is Based on the Identical Terms as the FEI-Keremeos Operating Agreement

The FEI-Penticton Operating Agreement is consistent with the approved terms of the Village of Keremeos Operating Agreement¹ (Keremeos Terms).

The only changes in the FEI-Penticton Operating Agreement as compared to the Keremeos Terms are to make six very minor corrections. Three of the changes are to make typographical corrections to reflect the original intent or make dates more current. The remaining three are consistent with revisions to the City of Kelowna Operating Agreement directed by the BCUC in Order G-81-19 and later approved by Order G-99-19, which include an update to referenced applicable legislation, addition of clarifying language, and an update to reference the Alternative Dispute Resolution Institute of Canada, Inc. The following summarizes the six

¹ Order C-8-14, dated July 24, 2014, approved the Village of Keremeos terms to be the basis for comparison in future operating agreement applications.

changes that have been made to the FEI-Penticton Operating Agreement as compared to the Keremeos Terms:

1. **Section 6.2**, third line, capitalization of utilities:
 - "...the Municipality's utilities..." now reads "...the Municipality's Utilities..."
2. **Section 6.4.1**, last line of the second paragraph, replacing "or" with "of":
 - "...non-use and want or repair." now reads "...non-use and want of repair."
3. **Section 11.1.1**, addition of clarifying language to reflect that the operating fee is not collected on revenues from Compressed Natural Gas (CNG) or Liquefied Natural Gas (LNG) services.
4. **Section 11.2**, last two lines of the paragraph, to update the years in the example to be more current:
 - "...on March 1, 2014 will be the amount received during the 2013 calendar year." now reads "...on March 1, 2018 will be the amount received during the 2017 calendar year..."
5. **Section 13.1.3**, line 4, update to current legislation
 - "...*Gas Safety Act*,..." with "...*Safety Standards Act*,..."
6. **Sections 17.1 and 17.2**, replaced reference to the Rules of Procedure of the Canadian Foundation for Dispute Resolution with the ADR Institute of Canada, Inc.

To assist the BCUC with its review, Appendix C contains a blacklined version showing all of the revisions to the FEI-Penticton Operating Agreement as compared to the Keremeos Terms.

Order Sought

Given the existing Operating Agreement expires on December 31, 2023, FEI requests approval from the BCUC, pursuant to section 23(1)(g) of the UCA, of the executed FEI-Penticton Operating Agreement on a permanent basis effective January 1, 2024. Should the BCUC be unable to issue its final decision prior to expiry of the existing Operating Agreement, FEI requests approval of the FEI-Penticton Operating Agreement on an interim basis effective January 1, 2024, pursuant to section 89 of the UCA. A draft form of final Order is provided in Appendix D.

If further information is required, please contact Ilva Bevacqua, Manager of Regulatory Compliance and Administration at (604) 592-7664.

Sincerely,

FORTISBC ENERGY INC.

6. FORTISBC WORK OBLIGATIONS:

6.1 Notices - General Requirements

- (c) the name of a FortisBC representative who may be contacted for more information;
- (d) projected commencement and completion dates; and
- (e) such other information relevant to the New Work as the Municipality may reasonably request from time to time.

6.1.2. Exception for Emergency

Where FortisBC is required to carry out work urgently in the interests of public safety or health or to preserve the safety of property and Company Facilities, FortisBC shall not be required to give prior notice but shall do so as soon as possible thereafter.

6.1.3. Municipal Approval for New Work

The Municipality may object to the New Work on the following grounds:

- (a) the proposed location of the New Work conflicts with existing Municipal Facilities, existing third party facilities or Planned Facilities; or
- (b) the proposed location or design of the New Work is likely to compromise public safety or does not conform with Municipal bylaws, standards or policies; or
- (c) in instances where FortisBC can delay the New Work without compromising the supply, capacity or safety of its Gas Distribution System or its customers' need for gas service and the Municipality intends within the next 3 months to undertake work in the same location and wishes to co-ordinate both work;

by providing FortisBC with notice of its objections, provided such objections are reasonable, no more than 10 days after receiving FortisBC's notice of New Work. If the Municipality has not provided such notice of its objections to FortisBC, or in the case of large and complex New Work, the Municipality has not provided FortisBC with a notice to extend the time to reply to FortisBC until a stated time, the Municipality shall be deemed to have granted its approval of the New Work. The Municipality shall not otherwise withhold or delay its approval.

In addition, the Municipality may request FortisBC to provide the public with notice of the New Work.

6.1.4. Work Not to Proceed

If the Municipality has notified FortisBC of its objections or has requested a time extension, no more than 10 days after receiving FortisBC's notice of New Work, FortisBC shall not proceed with the New Work until FortisBC and the Municipality have agreed upon a resolution to the Municipality's objections. If the Municipality and FortisBC are unable to agree, then the matter shall be resolved in accordance with Section 17 (Resolution of Disputes).

6.2 Notice of Service Lines

FortisBC shall provide the Municipality with notice of its intent to install, remove or repair Service Lines no less than three (3) days prior to commencement of such work. FortisBC's request for the location of the Municipality's Utilities shall be deemed to be a notice of FortisBC's intent to install, remove or repair Service Lines. The Municipality may object to such work on the same grounds as set out in Subsection 6.1.3 (a) and (b) above by providing FortisBC with notice of its objections within two (2) days of receiving FortisBC's notice. If the Municipality has not provided such notice of its objections to FortisBC, the Municipality shall be deemed to have granted its approval of the installation, removal or repair of the Service Lines. The Municipality shall not otherwise withhold or delay its approval.

6.3 FortisBC to Obtain Locate Information

Prior to conducting any New Work, FortisBC shall locate other Utilities and satisfy itself that it is clear to proceed.

6.4 Work Standards

All work carried out by FortisBC shall be carried out in accordance with sound engineering practices.

6.4.1. Specific Work Requirements Remove Materials

FortisBC shall keep its work sites clean and tidy. FortisBC shall remove all rubbish and surplus material from Public Places upon completion of its work.

The Company shall not leave any part of its gas system in such a state as to constitute a nuisance or a danger to the public through neglect, non-use and want of repair.

6.4.2. Restore Surface and Subsurface

Where FortisBC has performed any operations or New Work in a Public Place, FortisBC shall restore without unreasonable delay and return such Public Place, as much as reasonably practical, to the condition and use which existed prior to such activity. The restoration will be in accordance with the specifications set out by the Municipality. Such specifications may include the degree and nature of compaction, subsurface structure, surface finish and landscaping required.

Without limiting the generality of this section and by way of example only, the Municipality may require FortisBC to restore asphalt and concrete surfaces with a permanent repair or a temporary repair. Should a temporary repair be directed, FortisBC or the Municipality at its discretion will subsequently construct a permanent repair in accordance to its usual maintenance/replacement schedule for that area. The cost of permanent and temporary repairs to remediate Highway surfaces will be at the expense of FortisBC proportional to the surface area affected by the New Work.

Where FortisBC is required to cut pavement on a Public Place such cuts and restoration will be limited to less than 1.5 meters unless at the discretion of FortisBC a larger excavation is warranted due to the depth or size of the pipe or requirements of the Workers' Compensation Board or other relevant Provincial or Federal regulations. FortisBC will be responsible for any repairs and maintenance of the surface repair for a period of three (3) years. However, where pavement restoration has been conducted by the Municipality, whether or not such work was undertaken to repair cuts on FortisBC's behalf, FortisBC shall not be responsible for the repairs or maintenance of the surface repair.

6.4.3. Repair Damage to Municipal Facilities

To the extent that any of the work being done by FortisBC results in damage to Municipal Facilities or Public Places, other than the usual physical disruption to Public Places caused by the installation of Company Facilities that FortisBC shall restore in accordance with Section 6.4.2 above, FortisBC will, as soon as reasonably possible, report such damage and reimburse the Municipality for its costs arising from such damage calculated in accordance with Section 14.1 below. Where such damage results directly from inaccurate or incomplete information supplied by Municipality, and FortisBC has complied with all applicable laws and regulations, and with instructions supplied by the Municipality, then the cost of repairing damaged Municipal Facilities or Public Places will be at the expense of the Municipality.

6.5 Conformity Requirement

The New Work must be carried out in conformity with FortisBC's notice of New Work except that FortisBC may make in-field design changes when carrying out the New Work to accommodate field conditions which could not have been reasonably foreseen by FortisBC. If such in-field conditions materially impact FortisBC's plans for restoration or materially change the impact of FortisBC's work on Municipal Facilities, other than in respect of projected commencement and completion dates, FortisBC shall notify the Municipality of the changes and the reasons for them as soon as reasonably possible.

6.6 Non-Compliance

If Company Facilities located in Public Places are later found not to be located in compliance with FortisBC's notice of New Work provided in accordance with Section

6.1 and 6.5, then any alteration or upgrading required to bring them into compliance with such notice will be at the expense of FortisBC provided that the work has not been altered, damaged or modified by the Municipality or a third party.

7. COMPANY FACILITY CHANGES REQUIRED BY THE MUNICIPALITY

7.1 Notice of Closure of Public Places

Before any Public Places containing Company Facilities may be legally closed or alienated by the Municipality, the Municipality shall as soon as reasonably possible notify FortisBC of its intent to close or alienate such Public Places and either:

- (a) grant FortisBC a registered statutory right of way in a form satisfactory to FortisBC so as to maintain FortisBC's right to use the land; or
- (b) request FortisBC to remove and (if possible and practicable) relocate those Company Facilities affected by such closure or alienation at the sole cost of the Municipality.

If the Public Places are expropriated by an expropriating authority and FortisBC is required to remove the Company Facilities then the Municipality shall as soon as reasonably possible notify FortisBC of the expropriation. This provision is applicable when the Municipality receives official notice of expropriation or otherwise becomes aware of expropriation through communications with the expropriating authority.

8. FACILITY CHANGES REQUIRED

8.1 By FortisBC

FortisBC may provide Notice to the Municipality that it requires Municipal Facilities to be altered, changed, temporarily shut-down, temporarily by-passed, or relocated to accommodate its requirements. The Municipality will comply with FortisBC's requests to the extent it is reasonably able to do so and with reasonable speed and dispatch after receipt of written request. FortisBC agrees to pay for all of the costs for changes to the affected Municipal Facilities.

8.2 By the Municipality

The Municipality may provide Notice to FortisBC that it requires Company Facilities to be altered, changed or relocated to accommodate its requirements. FortisBC will comply with the Municipality's requests to the extent it is reasonably able to do so and with reasonable speed and dispatch after receipt of written request. The Municipality agrees to pay for all of the costs for changes to the affected Company Facilities. This section 8.2 is an agreement between the Municipality and FortisBC for the purpose of section 76(1)(c) of the *Oil and Gas Activities Act*.

9. JOINT PLANNING, COOPERATION AND COORDINATION

9.1 Conduct of Construction and Maintenance Activities

The Municipality and FortisBC agree to use reasonable efforts in carrying out their construction and maintenance activities in a manner that is responsive to the effect that it may have on the other party, as well as other users of Public Places. Such reasonable efforts include attending the planning meetings described in Section 9.2 below and reducing as much as is practical, the obstruction of access to Public Places, and interference with the facilities and activities of others in Public Places.

9.2 Communication and Coordination Activities

At the initiation of the Municipality, representatives of the Municipality, FortisBC and other affected Utilities and third parties will meet each year, prior to the construction season, to discuss the parties' anticipated construction activities for that year. Such discussions will include

- (a) the use of common trenching, common utility access facilities and such other common facilities as may be commercially reasonable and comply with operating and safety standards; and
- (b) the consolidation of planned maintenance work where pavement must be cut in order to avoid multiple excavations.

9.3 Municipal Planning Lead

During such annual planning meetings, the Municipality shall lead the planning process for all Utilities and third parties with Planned Facilities in Public Places.

10. MUTUAL INDEMNITY

10.1 Indemnity by FortisBC

10.1.1. FortisBC indemnifies and protects and saves the Municipality harmless from and against all claims by third parties in respect to loss of life, personal injury (including, in all cases, personal discomfort and illness), loss or damage to property caused by FortisBC in:

- (a) placing, constructing, renewing, altering, repairing, maintaining, removing, extending, operating or using the Company's Facilities on or under any Public Places;
- (b) any breach of this Agreement by FortisBC;

except to the extent contributed by negligence or default of the Municipality or the Municipal Employees.

10.1.2. This indemnity expressly extends to all acts and omissions of FortisBC Employees.

10.2 Indemnity by the Municipality

10.2.1. The Municipality indemnifies and protects and saves FortisBC harmless from and against all claims by third parties in respect to loss of life, personal injury (including, in all cases, personal discomfort and illness), loss or damage to property to the extent caused by the Municipality in:

- (a) placing, constructing, renewing, altering, repairing, maintaining, removing, extending, operating or using the Municipal Facilities on or under any Public Places;
- (b) any breach of this Agreement by the Municipality;

except to the extent contributed by the negligence or default of FortisBC or FortisBC Employees.

10.2.2. This indemnity expressly extends to all acts and omissions of Municipal Employees.

10.3 Limitations on Municipality's Liability

All property of FortisBC kept or stored on the Public Places will be kept or stored at the risk of FortisBC. For further certainty, FortisBC acknowledges that the Municipality has made no representations or warranties as to the state of repair or the suitability of the Public Places for any business, activity or purpose whatsoever. FortisBC accepts its use of Public Places on an "as is" basis.

11. OPERATING FEE

11.1 Fee Calculation

11.1.1. FortisBC agrees to pay to the Municipality a fee of three percent (3%) of the gross revenues (excluding taxes) received by FortisBC for provision and distribution of all gas consumed within the Boundary Limits of the Municipality, excluding all compressed natural gas and liquefied natural gas distributed from fueling stations, the provision and delivery of all liquefied natural gas, and all gas consumed by customers from whom the BCUC has not allowed FortisBC to collect the fee, and provided that the Municipality is permitted by law to charge such a fee. Such amount will not include any amount received by FortisBC for gas supplied or sold for resale.

11.1.2. The Municipality will provide FortisBC with thirty (30) days prior written notice of any boundary expansion so that existing and new customers in the expanded area can be included as a part of the annual payment fee.

11.1.3. FortisBC will be responsible for adding those existing and new customers within the new Municipal boundary upon receipt of such notice from the Municipality and the revised calculation of the fee will commence effective the date that is the later of the date of actual boundary change or thirty (30) days after the notification under section 11.1.2.

11.2 Payment Date and Period

Payments by FortisBC to the Municipality will be made on the first day of March of each year of the Agreement in respect of the amount received by FortisBC during that portion of the term of this Agreement which is in the immediately preceding calendar year. By way of example only, payment made on March 1, 2024 will be the amount received during the 2023 calendar year.

11.3 BCUC Decision or Provincial Legislation

In the event that a decision by the BCUC, other than periodic rate changes as a result of commodity, delivery or margin increases or decreases, or new legislation by the Provincial Government, impacts the operating fee being paid to the Municipality so as to increase it or decrease it by more than 5% annually at the time of the decision or in subsequent years, the parties shall negotiate a new operating fee formula which best reflects the revenue stream received by the Municipality under this Agreement. For greater certainty, the parties acknowledge that a change to the BCUC's decision that FortisBC shall provide the agency billing and collections service for marketers on a mandatory basis, as set out in the "Business Rules for Commodity Unbundling dated June 5, 2003 as set out in Appendix A to Letter No. L-25-03, may impact the operating fee being paid to the Municipality.

12. OTHER APPROVALS, PERMITS OR LICENSES

Except as specifically provided in this Agreement, the Municipality will not require FortisBC to seek or obtain approvals, permits or licenses. The Municipality will not charge or levy against FortisBC any approval, license, inspection or permit fee, or charge of any other type, that in any manner is related to or associated with FortisBC constructing, installing, renewing, altering, repairing, maintaining or operating Company Facilities on any Public Places or in any manner related to or associated with FortisBC exercising the powers and rights granted to it by this Agreement (other than for repair of damage to the Municipal Facilities or Public Places in accordance with Section 14).

If the Municipality does charge or levy fees or costs against FortisBC (other than for repair of damage to the Municipal Facilities or Public Places in accordance with Section 14) then FortisBC may reduce the annual operating fee payable to the Municipality under Section 11 by an amount equal to such charges, fees or costs or in the event no annual operating fee is payable, FortisBC will not be required to pay such charges or fees or costs.

13. MUNICIPAL OBLIGATIONS

13.1 Municipal Work

13.1.1. Before the Municipality undertakes any construction or maintenance activity which is likely to affect a part of the Company Facilities, excluding routine maintenance and repair that does not involve any cutting of asphalted road surface, it must give FortisBC notice not less than 10 days before commencing such construction or maintenance activity.

Before the Municipality undertakes routine maintenance and repair that does not involve any cutting of asphalted road surface and is likely to affect Company Facilities, it must give FortisBC notice not less than 3 days before commencing such construction or maintenance activity.

13.1.2. Where the Municipality is required to carry out work urgently in the interests of public safety or health or to preserve the safety of property and Municipal Facilities, the Municipality shall not be required to give prior notice but shall do so as soon as possible thereafter.

13.1.3. FortisBC will be entitled to appoint at its cost a representative to inspect any construction or maintenance activity undertaken by the Municipality. The provisions of this section do not relieve the Municipality of its responsibilities under the *Safety Standards Act*, *Oil and Gas Activities Act*, and successor legislation, regulations thereunder, or the requirements of the BC Workers' Compensation Board.

13.1.4. In addition, the Municipality shall provide Notice to FortisBC of any work planned that will be adjacent to, across, over or under a Transmission Pipeline or within a right-of-way for a Transmission Pipeline. To the extent that FortisBC requires that permit be issued for construction or other activities within a Transmission Pipeline right-of-way, the Municipality will submit an application for such a permit in sufficient time for the application to be reviewed and approved by FortisBC prior to the commencement of the construction or other activity.

13.1.5. The Municipality shall assist FortisBC in FortisBC's efforts to reduce instances of residences being built over gas lines and other similarly unsafe building practices by third parties.

13.1.6. The Municipality shall not interfere with Transmission Pipeline markers.

13.1.7. The Municipality shall provide notice to FortisBC of any damage caused by the Municipality to Company Facilities or Transmission Pipeline Markers as soon as reasonably possible. To the extent that any of the work being done by the Municipality results in damage to the Company Facilities, the Municipality will report such damage and pay FortisBC its costs arising from such damage in accordance with Section 14.1 below.

Where such damage results directly from inaccurate or incomplete information supplied by FortisBC, and the Municipality has complied with all applicable laws and regulations, and with instructions supplied by FortisBC, then the cost of repairing the damaged Company Facilities will be at the expense of FortisBC.

13.1.8. The Municipality shall notify FortisBC of any new bylaws, standards or policies adopted or passed by the Municipality that are likely to affect FortisBC's operations in Public Places.

14. COSTS AND PAYMENT PROCEDURES

14.1 Definition of Costs

Wherever one party is required to pay the other party Costs as a result of damage caused by one party to the other's property, the Costs shall be:

- (a) all direct expenses and disbursements incurred to restore such property to as good a state of repair as had existed prior to the damage;
- (b) reasonable administration and overhead charges on labour, equipment and materials;
- (c) such taxes as may be required in the appropriate jurisdiction;
- (d) in the case of loss of gas or re-lights, the cost of the commodity as determined by the length of time that the gas is leaking, size of pipe and hole and the pressure; and
- (e) in the case of water, electrical or sewer, cost of supplying alternate service.

14.2 Cost Claim Procedures

3. USE OF MUNICIPAL PROPERTY

In undertaking its work within the Municipality and exercising its right to the use of Public Places in the Municipality the Company, and the Company's officers, employees, contractors and licensees, will limit damage to that reasonably required for the construction, installation, alteration, repair, maintenance or operation of the Company

Facilities and will not cause obstruction beyond that reasonably required during the progress of the work, and will restore without unreasonable delay the Public Places in the Municipality to a state of repair or conditions as near as reasonable to that which existed immediately before the commencement of such work, and the Company will cause safeguards to be set up and maintained when any Public Places are broken up.

4. NOT TO INTERFERE WITH EXISTING FACILITIES

The Company Facilities will be placed, installed and constructed in such manner as not to interfere with any water or sewer line or any other pipe, conduit, duct, manhole or system belonging to the Municipality or which has been previously installed and is then located in any Public Places by, or with the permission or approval of the Municipality, or by virtue of a right granted by competent government or municipal authority.

5. COMPANY TO INDEMNIFY MUNICIPALITY

The Company agrees with the Municipality that it will protect, indemnify and save harmless the Municipality, its elected officials and employees, from and against actions, proceedings, claims and demands of any corporation or person against the Municipality and will reimburse the Municipality for all damage caused to the Municipality in respect of or by the execution by the Company of its right to construct and operate gas distribution facilities or by reason of the construction, installation, alteration, repair, maintenance or operation of the Company Facilities within the boundary limits of the Municipality, except to the extent caused by or contributed to by the negligence or default of the Municipality or its employees or agents. The Company further agrees that it will protect and indemnify the Municipality from and against claims, demands and actions by third persons in respect of damages sustained by them by reason of any operations of the Company in connection with the execution of its right to construct and operate gas distribution facilities or by reason of any operations of the Company in relation to the Company Facilities.

6. COORDINATION

Each of the parties acknowledges that its construction and maintenance activities may affect the other party and its facilities. Each party will carry out its construction and maintenance activities in a manner that is responsive to the effect that its activities will have on the other party and its facilities. During the term of this Agreement representatives of the Company and representatives of the Municipality will meet each year, as much in advance of the construction season as reasonable, to discuss the construction activities within the boundary limits of the Municipality that each party anticipates will occur during that year. The parties will make reasonable efforts to coordinate the anticipated construction and maintenance activities of both parties to avoid unnecessary breaking up of Public Places.

7. NOTICE EXCEPT IN EMERGENCIES

As and when required by the Municipality, the Company will give notice to the Municipality or such officer or official thereof who has been designated from time to time by the Municipality, of its intention to break up, dig, trench, open up or excavate any Public Places, not less than three days before the beginning of such work. Such notice need not be given in cases of repair, maintenance or the like that can reasonably be

deemed to be emergencies or in the interests of the health or safety of the public, or the safety of property by whomsoever owned, in which cases no notice need be first given but will be given as soon as practicable thereafter.

8. TRANSMISSION PIPELINES

The Municipality will:

- (a) allow the Company to place identification pipeline markers within Public Places where a Transmission Pipeline crosses, or is within, a Public Place. The Company will be responsible for the installation and maintenance of the pipeline markers. The Municipality will make all reasonable efforts to notify the Company within 24 hours of any damage caused to a pipeline marker by the Municipality, its employees or contractors; and
- (b) give notice to the Company of any work planned by the Municipality that will be adjacent to, across, over or under a Transmission Pipeline or within a right of way for a Transmission Pipeline. To the extent that the Company requires that a permit be issued by the Company for construction or other activities within a Transmission Pipeline right of way the Municipality will submit an application for such a permit to the Company in sufficient time for the application to be reviewed by the Company prior to the commencement of the construction or other activity by the Municipality.

9. SUBMISSION OF PLANS

As and when required by the Municipality, a plan and specifications showing the proposed location, depth and dimensions of Company facilities to be placed, installed or constructed upon, along, across, over or under any Public Places will be submitted to such officer or official as will be designated from time to time by the Municipality for that purpose, and Company facilities will not be placed, installed or constructed upon, along, across, over or under any Public Places without first submitting such plans and providing to such officer or official a reasonable time to review, comment on, and approve such plans, provided always that approval will not be unreasonably withheld or delayed. If Company Facilities that at the time of construction were located in Public Places are later found not to be in compliance with the standards of the Municipality in effect at the time of construction, then any alteration or upgrading required to bring them into compliance with those standards will be at the expense of the Company.

Except as specifically provided in this Agreement or as required by Provincial or Federal legislation, the Municipality will not require the Company to seek or obtain approvals, permits or licenses and the Municipality will not charge or levy against the Company any approval, license or permit fee, or fee or charge of any other type, that in any manner is related to or associated with the Company constructing, installing, renewing, altering, repairing, maintaining or operating Company Facilities (other than a Transmission

Before the Municipality undertakes any construction or maintenance activity which may in any manner affect a part of the Company Facilities, it will give to the Company written notice not less than 72 hours before commencing such construction or maintenance activity; except in cases of repair, maintenance or the like that can reasonably be deemed to be emergencies or in the interests of the health or safety of the public, or the safety of property by whomsoever owned, in which cases no notice need be first given but will be given as soon as practicable thereafter. The Company will be entitled to appoint at its cost a representative to observe and advise in respect to any construction or maintenance activity undertaken by the Municipality. The provisions of this section do not relieve the Municipality of its responsibilities under the *Gas Safety Act*, R.S.B.C. 1996, Chapter 169, *Pipeline Act*, R.S.B.C. 1996, Chapter 364 and successor legislation, regulations thereunder and amendments thereto, nor do the provisions of this section relieve the Municipality of the requirements of the Workers' Compensation Board.

13. ALTERATIONS TO WORK

Notwithstanding any other provisions of this Agreement, if either party requests the other party to relocate or make other changes or alterations in the other party's pipes, facilities, equipment, or appliances installed under, over, across, upon or adjacent to Public Places in order to facilitate the installation or construction of new pipes, facilities, equipment, or appliances by the requesting party, the party receiving the request will, if it reasonably can, carry out the relocation, change or alteration requested and will charge the requesting party with the entire costs thereof. Such costs will include, without limiting the generality of the foregoing, such overhead charges on labour and materials as may be from time to time charged by the party receiving the request, as well as all expenses and disbursements incurred in carrying out such relocation, change or alteration.

14. DAMAGE TO COMPANY FACILITIES

If the Municipality destroys or damages any of the Company Facilities under, over, across, upon, or adjacent to Public Places which were installed before or after the date of this Agreement the Municipality will bear the cost of repairing the damaged Company Facilities in such manner as to restore the Company Facilities to as good a state of repair as had existed prior to the occurrence of such damage or destruction. Where such damage results directly from inaccurate or incomplete information supplied by the Company, and the Municipality has complied with all applicable laws and regulations, and with instructions supplied by the Company, then the cost of repairing damaged Company Facilities will be at the expense of the Company.

15. DAMAGE TO MUNICIPAL FACILITIES

If the Company destroys or damages any facilities of the Municipality which were installed before or after the date of this Agreement the Company will bear the cost of repairing the damaged facilities of the Municipality in such manner as to restore the facilities of the Municipality to as good a state of repair as had existed prior to the occurrence of such damage or destruction. Where such damage results directly from inaccurate or incomplete information supplied by the Municipality, and the Company has complied with all applicable laws and regulations, and with instructions supplied by the Municipality, then the cost of repairing damaged municipal facilities will be at the expense of the Municipality.

16. FEE TO BE PAID TO MUNICIPALITY

During the term of this Agreement the Company will pay to the Municipality:

- (a) from the commencement of the term of this Agreement until the Revision Date or the expiry or termination of this Agreement, whichever is sooner:
 - (i) a fee of three percent of the amount received by the Company for gas consumed by Residential and Commercial gas consumers within the boundary limits of the municipality, but such amount will not include any amount received by the Company for gas supplied or sold for resale for consumption outside the boundary limits of the Municipality; and
 - (ii) a fee of three percent of the amount received by the Company for gas consumed by gas consumers other than Residential and Commercial gas consumers within the boundary limits of the Municipality, but such amount will not include any amount received by the Company for gas supplied or sold for resale for consumption outside the boundary limits of the Municipality;
- (b) if there is an Unbundling Decision the parties will negotiate in an attempt to agree on the fees to be paid by the Company to the Municipality from the Revision Date, and the fees to be paid by the Company to the Municipality from the Revision Date until the expiry or termination of this Agreement will be the fees determined as follows:

- (i) if within six months of the Unbundling Decision the parties agree that the fees to be paid from the Revision Date are the same as those set out in subsection 16 (a) above then those fees will continue to be paid by the Company to the Municipality from the Revision Date to the expiry or termination of this Agreement;
- (ii) if within six months of the Unbundling Decision the parties agree that the fees to be paid from the Revision Date should differ from those set out in subsection 16 (a) above then the Company will apply to the BCUC for approval of the new level of fees and, to the extent required, the Municipality will apply for approval under the *Local Government Act* and amendments thereto, and all other applicable legislation. If the approval of the BCUC and other required approvals are received within nine months of the Unbundling Decision then the new fees agreed between the parties will be paid by the Company to the Municipality from the Revision Date to the expiry or termination of this Agreement. If the approval of the BCUC or any other required approval is not received within nine months of the Unbundling Decision then it will be deemed that there is no agreement between the parties and the fees to be paid from the Revision Date will be determined pursuant to clause 16 (b) (iii) below; and
- (iii) if within six months of the Unbundling Decision there is no agreement between the parties on the fees to be paid from the Revision Date then the Company will apply to the BCUC pursuant to section 32 of the *Utilities Commission Act* (or successor section) for an order allowing the Company to use the streets and other places of the Municipality.
