Enclosure

ORDER NUMBER

G-320-21

IN THE MATTER OF

the *Utilities Commission Act*, RSBC 1996, Chapter 473

and

FortisBC Energy Inc.

Application for Approval of Rates and Agreement for Constructing and Operating a Compressed Natural Gas Fueling Station under the Province's Greenhouse Gas Reduction (Clean Energy) Regulation for GFL Environmental Inc. and for Amendments to Rate Schedule 6P – Public Service – Natural Gas Refueling Service Tariff and Rates

BEFORE:

W. M. Everett, QC, Commissioner

B. A. Magnan, Commissioner

R. I. Mason, Commissioner

on November 5, 2021

ORDER

WHEREAS:

- A. On October 27, 2021, FortisBC Energy Inc. (FEI) applied to the British Columbia Utilities Commission (BCUC), pursuant to sections 59 to 61 and 89 of the *Utilities Commission Act* (UCA), for approval of the following:
1. The rate design and rates established in a Fueling Services Agreement and amending agreement to the Fueling Services Agreement (Amending Agreement No. 1) between FEI and GFL Environmental Inc. (GFL) (collectively GFL Agreement) for Compressed Natural Gas (CNG) fueling service at the fueling station located in Abbotsford, BC (GFL Abbotsford Fueling Station) on an interim and refundable basis, effective November 15, 2021; and
 2. Amendments to Rate Schedule 6P – Public Service – Natural Gas Refueling Service (RS 6P) tariff and rates, on an interim non-refundable/non-recoverable basis, to accommodate point-of-sale public fueling at the GFL Abbotsford Fueling Station, effective November 30, 2021. Due to the nature of the service, FEI states that it will not have the ability to refund or recover any differences between interim and permanent rates for public users (Application);
- B. FEI requests that the live financial model filed as Appendix C to the Application be held confidential on the basis it is the result of significant development effort by FEI on behalf of its customers and therefore the formulas and configuration of the model are commercially sensitive;
- C. On December 14, 2020, FEI entered into a Fueling Services Agreement and on September 22, 2021, Amending Agreement No. 1, which established the terms, conditions and rates for GFL to receive CNG fueling service from the GFL Abbotsford Fueling Station;

- D. FEI states it has secured a capital contribution under the Government of Canada's Natural Resources Canada (NRCan) Electric Vehicle and Alternative Fuel Infrastructure Deployment Program towards the development and construction of the GFL Abbotsford Fueling Station. Under the funding contribution agreement between NRCan and FEI for the GFL Abbotsford Fueling Station, FEI is required to provide public fueling access to the station by December 31, 2021; and
- E. The BCUC has commenced its review of the Application and determines that the interim rates applied for are warranted, and also considers that public notification and a regulatory timetable is warranted to review whether the GFL Abbotsford Fueling Station is a prescribed undertaking as provided in the Greenhouse Gas Reduction (Clean Energy) Regulation.

NOW THEREFORE pursuant to sections 59 to 61 and 89 of the UCA, the BCUC orders as follows:

1. FEI is approved to use the rate design and rates established in the GFL Agreement on an interim and refundable/recoverable basis, effective November 15, 2021.
2. FEI is directed to file an application with the BCUC seeking permanent rates upon the determination of the actual capital expenditures of the GFL Abbotsford Fueling Station.
3. FEI is directed to refund to/recover from GFL the variance between the interim rates and the permanent rates, as finally determined by the BCUC following the application to be filed by FEI seeking permanent rates, with interest calculated at the average prime rate of FEI's principal bank for its most recent year.
4. The BCUC consents to the proposed amendments and rates to RS 6P, for public fueling at the GFL Abbotsford Fueling Station, as set out in the Application on an interim basis, effective November 30, 2021. Any variance between the interim rates and the permanent rates will not be refundable to or recoverable from customers under RS 6P.
5. FEI is to file the GFL Agreement in tariff supplement form and the revised RS 6P tariff pages for endorsement by the BCUC within 30 days of the date of this order.
6. The live financial model filed as Appendix C to the Application is to be kept confidential due to its commercially sensitive nature.
7. A regulatory timetable as set out in Appendix A to this order is established for the review of the Application.
8. FEI must provide a copy, electronically where possible, of the Application and this order on or before Tuesday, November 16, 2021, to GFL and to all registered interveners in the FEI Application for Approval of Revised/Renewal Rates for the Langford, BC CNG Fueling Station proceeding and the FEI Annual Review for 2022 Rates Application proceeding.
9. FEI must post this order on its website, and publish it on its Twitter, LinkedIn and Facebook social media platforms, on or before Tuesday, November 16, 2021. FEI must also publish weekly reminder notices on each of these platforms until the conclusion of the intervener registration period on Wednesday, December 1, 2021.
10. In accordance with the BCUC's Rules of Practice and Procedure, parties who wish to actively participate in this proceeding must complete the Request to Intervene Form, available on the BCUC's website at <https://www.bcuc.com/Forms/RequestToIntervene>, by the date established in the regulatory timetable.

11. Any party wishing to provide comments on the Application is invited to submit a letter of comment in accordance with the BCUC's Rules of Practice and Procedure. Letters of comment must be submitted on the BCUC's website at <https://www.bcuc.com/Forms/LetterOfComment>.

DATED at the City of Vancouver, in the Province of British Columbia, this..... 5thday of November 2021.
