Original Page R-3

Rate Schedule 3: Large Commercial Service

Available

This Rate Schedule is available in all territory served by FortisBC Energy, provided adequate capacity exists on the FortisBC Energy System.

Applicable

This Rate Schedule is applicable to Customers with a normalized annual consumption at one Premises of greater than 2,000 Gigajoules of firm Gas, for use in approved appliances in commercial, institutional or small industrial operations.

- Rider 8Storage and Transport Renewable Natural Gas (S&T RNG) Rider –Applicable to Mainland and Vancouver Island Service and Fort Nelson AreaCustomers for the Year ending December 31, 2025.

Municipal Operating Fee Charge

A Municipal Operating Fee charge is payable (in addition to the above charges), if the Premises to which Gas is delivered under this Rate Schedule is located within the boundaries of a municipality or First Nations lands (formerly, reserves within the *Indian Act*) where FortisBC Energy is required to remit such Municipal Operating Fee to the municipality and excluding any Customer from whom FortisBC Energy is not allowed to collect such Municipal Operating Fee. The Municipal Operating Fee charge will be calculated in accordance with the approved methodology.

Minimum Charge per Month

The minimum charge per Month will be the aggregate of the Basic Charge and the Municipal Operating Fee charge (where applicable and calculated in accordance with the approved methodology).

Interim Rate Establishment

Pursuant to British Columbia Utilities Commission (BCUC) Order G-313-24, delivery rates are set on an interim basis for consumption on and after January 1, 2025, until such time as a decision on permanent 2025 rates is issued by the BCUC. The interim rates are subject to refund/recovery with interest at the average prime rate of FortisBC Energy's principal bank for its most recent year.

Permanent Rate Establishment

Pursuant to BCUC Order G-88-25, the Commodity Related Charges are made permanent for consumption on and after January 1, 2025.

Notes:

 The Cost of Gas is based on the calculation of 100% of a Customer's consumption in Gigajoules, minus the percentage of the RNG Blend Service measured in Gigajoules, multiplied by the Cost of Gas (Commodity Cost Recovery Charge) per Gigajoule. For example, if the RNG Blend Service is set at 1%, the Cost of Gas will be calculated based on 99% (100% - 1%) of a Customer's consumption.
