Industrial optimization ²	varies, contact your key account manager or email industrialrebates@fortisbc.com	funding for plant-wide audits, feasibility studies and implementing energy conservation measures for industrial facilities

¹Conditions apply. Complete rebate details available online. FortisBC may modify or cancel programs at any time.

²Industrial programs are for customers with facilities that use natural gas as an input to industrial production.

Industrial production is a manufacturing or transformative process in which raw materials are transformed into finished goods for the purpose of resale with the use of machines, tools and labour.

Chris Kerr, A&W franchise owner

High-efficiency kitchen upgrades with a side of rebates

As part of its commitment to energy efficiency, A&W Food Services of Canada supports its growing number of franchisees to get rebates for ENERGY STAR® certified natural gas cooking equipment.

So far, B.C. franchisees have accessed more than **\$58,000** in FortisBC rebates for high-efficiency natural gas griddles and fryers—premium cooking equipment that heats up faster and maintains temperature, helping to reduce operational costs.

That's energy at work.

See our commercial kitchen rebates menu at fortisbc.com/orderupsavings.

Find a gas contractor

Need the services of a Technical Safety BC licensed natural gas contractor? Let us help.
