<sup>1</sup>Conditions apply. Complete rebate details available online. FortisBC may modify or cancel programs at any time.

<sup>2</sup>Industrial programs are for customers with facilities that use natural gas as an input to industrial production. Industrial production is a manufacturing or transformative process in which raw materials are transformed into finished goods for the purpose of resale with the use of machines, tools and labour.

## Find a contractor

Need a professional to install or service your heating systems and equipment? Find qualified contractors through our searchable directories at [fortisbc.com/contractors](http://fortisbc.com/contractors).

# 5 easy ways to save energy

Whatever your business, here are five quick ways you can save on your energy costs this winter.

**HVAC** - maintain HVAC units and clean or replace air filters and coils regularly to ensure proper air flow.

**Hot water** - flush storage tank water heaters yearly and install water-efficient faucets and fixtures.

**Lighting** - replace fluorescent and halogen lamps to LED light bulbs and fixtures.

**Controls** - install programmable thermostats and set back the temperatures in unoccupied areas.

**Computers** - turn off computers and electronics when not in use and enable ENERGY STAR® features on computers.
