

Commercial product rebate – Insulation inventory

Customer name	Date (YYYY/MM/DD)
---------------	-------------------

Installation location			
Address	City	Province	Postal code

Contractor details		
Insulation contractor business name	Email	Phone number

Piping systems													
Piping systems/ fluid types	Piping diameter (in)										Average fluid temperature (°C)	Insulation thickness (in)	Type of insulation (provide spec sheet)
	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"	2 1/2"	3"	4"				
Domestic hot water													
Process hot water													
High pressure steam													
Low pressure steam													
Total linear footage													

Tank systems													
Tank systems/ fluid types	Tank wrap (sqft)										Average fluid temperature (°C)	Insulation thickness (in)	Type of insulation (provide spec sheet)
	Valves	Air separator	Heat exchanger	Expansion tank	Buffer tank								
Low temp (49-77°C) insulation (min 1" thick)													
High temp (77-93°C) insulation (1" to 2" thick)													
High temp (77-93°C) insulation (greater than 2" thick)													
Total linear footage
