# Boiler Commissioning Sheet

## Homeowner instructions:

1. Ask your contractor to complete this sheet. Your contractor will run a series of tests on your new high-efficiency boiler to gather the required data.
2. Submit a copy of this sheet with the rest of your rebate application package.
3. Keep a copy with your boiler. This sheet will provide valuable information when your boiler is serviced in the future.

## Why is commissioning important?

Commissioning of a high-efficiency boiler ensures it is installed and operating correctly. The benefits of a properly commissioned boiler include lower operating costs, potentially greater equipment longevity, and less maintenance over its lifetime. Additional benefits include improved home comfort, and a boiler that will run smoothly and quietly.
