

Operational Changes: Hold to Authorize and Imbalance Return

December 30, 2021

Operational Changes across British Columbia:

For all customers located in the Lower Mainland (inclusive of Vancouver Island), Interior, East Kootenay and Columbia regions, **effective Saturday, January 1**, the Hold to Authorize restriction will be lifted and Imbalance Return will be increased to half of normal levels.

As January 1 is the start of a new month, your Imbalance Return allocation has been recalculated based on your actual demand throughout December. See the “Sch Qty” field in your nomination screen for allocated amounts.

Capacity Curtailment Lifted:

As indicated in the notice issued on Wednesday, December 29, effective Thursday, December 30th at 7AM PST, Interruptible customers under Rate Schedules 7, 22, and 27 in Lower Mainland are no longer under a curtailment restriction.

FortisBC reserves the right to limit the use of imbalance return or otherwise curtail service. FortisBC continues to monitor the weather and operational conditions across its service regions and will provide as much advanced notice as possible in the event of changes.

Note this posting will be appended to the news flash section of our web site for your future reference:
