

Operational Notice: Capacity Curtailment for Customers under Rate Schedules 7, 22 and 27

December 19, 2022

Capacity Curtailment for Interruptible Customers across Lower Mainland and Vancouver Island:

Based on the forecasted design day temperatures, beginning **Tuesday, December 20 until further notice**, all Interruptible customers under Rate Schedules 7, 22, and 27 across the Lower Mainland and Vancouver Island service areas will have their IT service interrupted. FEI will continue to monitor the weather and temperature forecast to determine when the capacity curtailment can be lifted. FEI will provide an update to operational changes at the earliest possible time. We encourage everyone to monitor Environment Canada for updates.

Industrial Account Managers have been contacting Interruptible customers directly with instructions regarding this curtailment. Marketers should reach out to their customers directly to determine changes to supply requirements.

Operational Restrictions across all British Columbia:

As indicated in the FortisBC notice issued on December 15, customers across all service areas in the province remain in a Hold to Authorize restriction with Imbalance Return at zero until further notice.

With the above restrictions in place, Marketers must bring in enough direct supply to cover their entire customer group demand in order to avoid Unauthorized Over-Run charges.

If a Shipper or Group takes gas in excess of the authorized quantity, Unauthorized Over-Run charges will apply. The first 5% of gas taken over the authorized quantity will be charged to the Shipper or Group at the Sumas Daily Price. Gas taken in excess of 5% of the authorized quantity will be charged the greater of CAD \$20.00 per gigajoule or the Sumas Daily Price times 1.5.

FortisBC reserves the right to limit the use of imbalance return or otherwise curtail service. FortisBC continues to monitor the weather and operational conditions across its service regions and will provide as much advanced notice as possible in the event of changes.

Note this posting will be appended to the news flash section of our web site for your future reference:
