

Notice: Availability of Imbalance Return

February 2, 2014

Effective February 3, 2014 until further notice, imbalance return will be **reduced to zero** in the Lower Mainland and Interior regions.

The elimination of imbalance return means daily balanced groups must bring on enough direct physical supply to meet or exceed your daily group's consumption or balancing premium surcharges will apply.

Balancing surcharges in winter are \$1.10 per GJ and will apply to gas exceeding 20% of the authorized quantity or over 100 GJs.

To note this posting will also be located in the news flash section of our web site:
