

Notice: Imbalance Return Eliminated

January 10, 2013

Until further notice, imbalance return will be reduced to zero in the Lower Mainland and Interior regions effective January 11, 2013. This applies to daily balanced groups only. This means you must bring on enough direct physical supply to meet or exceed your daily group's consumption or balancing premium surcharges will be incurred.

Balancing surcharges in winter are \$1.10 per GJ and will apply to gas exceeding 20% of the authorized quantity or over 100 GJs.

To note this posting will also be located in the news flash section of our web site:
