

This Upcoming Weekend

January 14, 2025

Based on the weather forecast from Environment Canada, we may be expecting the first cold weather event of the winter impacting all regions across the province. And, to note this is a long weekend with the Martin Luther King holiday on Monday.

Please be prepared to make the necessary arrangements throughout the weekend on behalf of your customers to ensure you have sufficient supply to meet anticipated demand.

FortisBC Energy will continue to monitor the forecast over the coming days and communicate appropriately to Shipper Agents should any operating conditions change.

We encourage everyone to monitor Environment Canada for updates.

FortisBC reserves the right to limit the use of imbalance return or otherwise curtail service. FortisBC continues to monitor the weather and operational conditions across its service regions and will provide as much advanced notice as possible in the event of changes.

Note this posting will be appended to the news flash section of our web site for your future reference:
