

Operational Changes: Imbalance Return & Hold to Authorize

December 7, 2022

Further to our notice issued yesterday December 6, assuming that Westcoast completes their tool run on Thursday, December 8, FEI will lift the operational restrictions for imbalance return and the hold to authorize for the Lower Mainland and Interior effective Friday, December 9 until further notice.

If the maintenance extends beyond December 8, the restrictions will remain. Should this occur, FEI will advise at the earliest possible time.

FortisBC reserves the right to limit the use of imbalance return or otherwise curtail service. FortisBC continues to monitor the weather and operational conditions across its service regions and will provide as much advanced notice as possible in the event of changes.

Note this posting will be appended to the news flash section of our web site for your future reference:
