

Notice: Critical Notice

October 10, 2018

As indicated in **Enbridge's Critical Notice (#50877)** issued last night:

BC Pipeline has experienced an interruption in service on the TSouth system.

Earlier this evening, a rupture occurred on a natural gas transmission pipeline owned and operated by Enbridge approximately 13.5 km north of Prince George, B.C.. The rupture ignited at the site which is in a rural area. There are no reports of injuries as a result of the incident.

Enbridge emergency crews have responded, have isolated and currently depressuring two natural gas transmissions lines in the vicinity to contain the incident.

Impact to Transportation Customers and Marketers on Fortis' system:

- A Force Majeure has been declared impacting all interruptible customers in the Lower Mainland, Interior and Vancouver Island
- Fortis is asking firm customers to cut back
- Imbalance return in the Lower Mainland and Interior is zero effective today until further notice
- Enbridge's authorized T-South is zero effective for October 11 gas day
