

Notice: Interior and Lower Mainland Nominations

Oct 12, 2016

Due to firm restrictions on Spectra, effective October 15, 2016 until further notice, all Marketers are required to make best efforts to nominate in WINS no more than approximately 20% above expected group demand at the INT and LML locations. Given Spectra is fully contracted, over-inflated nominations have been causing operational issues for FEI particularly while capacity constraints have been imposed.

FEI will be monitoring your nominations to ensure compliance. Be aware that under the tariff, FEI has the right to amend your nominations if deemed necessary, but we prefer not to take this approach and leave the responsibility to the Marketers to manage their business appropriately.

Thank you and please do your best to comply.
